- FIIAP

LEONARDO MARTINS

PYTHON DEVELOPER

PROFILE

Python developer with over 2 years of experience. Most of my career has been in software houses, where I participated in various projects, developing the ability to adapt to different scenarios and actively contributing with solution suggestions by combining technical knowledge with market insight

SKILLS

- Django
- GCP
- SCRUM
- API's
- MySQL
- Django Rest
- Python
- PostgreSQL
- NoSql
- AWS
- Mongo DB
- JavaScript

WORK EXPERIENCE

Python Backend Developer (Freelancer) JAN/2025 - CURRENT

- **develop and maintain REST APIs with Django** for a variety of clients, focusing on scalability and customization.
- integrate systems, build new features, and **optimize existing solutions in on-demand projects**.
- work with international clients, communicating fluently in English and Portuguese from requirements definition to final delivery.
- **manage technical planning**, scope definition, and scheduling, ensuring high-quality, on-time deliveries.
- **deploy applications** on platforms like AWS, GCP, Heroku, and Vercel, configuring services and monitoring systems.
- **take ownership of solution architecture**, continuously proposing improvements with a strong focus on results and meeting deadlines

Collabora - Software House e Assessoria de MKT Dec/2023 - Dec/2024
Python Backend Developer

- **developed and maintained RESTful APIs** using Python/Django, ensuring stability, performance, and security.
- integrated internal and external systems with a focus on scalability.
- **designed and optimized SQL** (PostgreSQL, MySQL) and NoSQL (MongoDB) databases for **high performance**.
- **managed multiple projects simultaneously**, prioritizing tasks and delivering features using agile methodologies (Scrum).
- collaborated with Front-end, QA, UX, and DB teams to ensure **seamless integration across all layers of the application**
